Space & Naval Warfare Systems Command Awards Contract

SAN DIEGO – Advanced Programming Concepts of Austin, Texas, is being awarded a \$11,699,143 sole source, cost plus fixed fee contract for the continued design, development, integration, maintenance, and engineering / technical support of Air Defense Systems Integrator (ADSI) software for the Global Command and Control System (GCCS) Defense Information Infrastructure (DII) Common Operating Environment (COE). A Firm, Fixed Price hardware line item with a not-to-exceed dollar amount of \$1,200,000 is also included in the contract. The period of performance for the base period is from March 12, 1999 through September 30, 1999. The contract contains two one-year options which, if exercised, will bring the total cumulative value of the contract to \$44,831,241 (total dollar amount including options). The contract will initially be incrementally funded with Other Customer Funding in the amount of \$20,000. Multiple funding sources (including FMS) will be utilized throughout the contract's period of performance. Work will be performed at the contractor's site in Austin, Texas, with a small percentage to be done at Naval locations worldwide. This contract was procured on a sole source basis under the authority of 10 U.S.C. 2304(c)(1), only one responsible source and no other supplies or services will satisfy agency requirements. The Space and Naval Warfare Systems Command San Diego is the contracting activity (N00039-99-C-3130).
